The demand exceeds the supply of tender sweet corn this week and the price is hovering around \$3.00 per crate for the yellow variety. The white variety, scarce though it may be, brought as much as \$3.50 on Monday.

The pepper market shows a good demand and the market about steady with the price for large variety running between \$5.50 and \$5.75 per bushel tub.

Mrs. Paul Rardin left Monday to attend the Florida Evangelistic Conference to be held at the First Baptist Church in Orlando. She will be joined by Miss Mattie Bain of Coats, North Carolina, who will accompany Mrs. Rardin to Canal Point to spend several weeks as the guest of Mr. and Mrs. Paul Rardin.

## Milton Carpenter Is A Candidate In Group Two For State Representative

Former County School Board member Milton O. Carpenter of Belle Glade, announced Wednesday that he will be a candidate for the State House of Representatives Group 2 seat, which will be vacated by Rep. Emmett Roberts of Belle Glade.

Mr. Carpenter, a Democrat, said, "My five years experience with County Government as a member of the County Board of Trustees and the County School Board (1959-64) have helped to prepare me for this most important position. It is my conviction that those in our Federal, State and local governments must make every effort to require sound businesslike procedures in the expenditure of public funds. During my term of office on the County School Board, over \$450,000.00 was saved as a direct result of my insistence upon competitive bidding and improved business procedures."

Mr. Carpenter stated: "I am a native of Palm Beach County and feel I am in touch with the many problems of our entire county, as well as those relating to our great agricultural industry in the Glades."

"It has been apparent to me for some time that the property owners in our county were saddled with a grossly unfair tax burden. If elected, I shall work hard to find every possible way of providing relief in this area. A detailed platform will be submitted to the public in the near future, and the field of education will, of course,

occupy an important position on it."

A resident of Belle Glade for 12 years, Mr. Carpenter is a graduate of Pahokee elementary and high schools. Following active duty with the United States Navy in World War II, he attended Massachusetts Trade Shop School in Boston, Massachusetts, and the University of Florida, Gainesville.

Long active in civic work, he has served on the Board of Directors of the Belle Glade Chamber of Commerce; been a member of the Belle Glade Junior Chamber of Commerce; a troop councilman for the Boy Scouts of America; and is a member of the Belle Glade Lions Club; Masonic Lodge No. 273; honorary lifetime member of the Palm Beach County Principals Association and is an official of his church, the Community Methodist Church of Belle Glade.

Mr. Carpenter is 37 years old and has been a successful general insurance agent in the Glades area for 15 years. Married to the former Nancy Seger of Rockford, Illinois, he has three daughters, Colette, Karen, and Peggy Ruth. He resides with his family at 316 N. W. Avenue E, Belle Glade.

## Trio Named To Directorate Of Resources Board

Three men from Pahokee and Canal Point have been named to membership on the directorate of the Palm Beach County Resources Development Board. The RDB, during the past couple of years, has been losing its punch in Palm Beach County and hasn't been able to accomplish many things for the benefit of the county as a whole.

Within the past few weeks and under new management, the Board has made an effort to go "county-wide" again and is naming membership on the board of directors from various sections of the county. Naming of three men from Pahokee and Canal Point will give the local folks a feeling that they are a part of the RDB and will, in all probability, make an effort to support the organization financially.

The RDB group in West Palm Beach has chosen Harry Brooks Elarbee, member of the Pahokee city council and Oscar Dobrow of Pahokee along with Stanley Hooks of Canal Point as members of the board of directors. All three men are young and energetic and should make splendid members of the board of directors.

In order for the RDB to get the support of the people west of 20-mile Bend, it is necessary that the organization make an honest effort to lay before the folks out here something tangible that it has accomplished recently. An organization can't maintain its stature in any community by leaning upon one accomplishment through the years.

## Counties Receive Race Tax Funds

State Comptroller Fred O. Dickinson announced Monday the monthly distribution of \$1,407,000 to Florida counties in state racing tax funds.

Racing tax receipts are divided equally among Florida's counties. The January distribution, Dickinson said, provided each county with \$21,000.

That is an increase of \$2,000 per county over the \$19,000 allocated each county in January, 1965.

Dickinson reported since the beginning of the current fiscal period racing tax distribution in November, the state has distributed \$84,000 to each county. That is an increase of \$13,000 over the \$71,000 total the individual counties had received during this period a year ago.

Why should you buy  
U.S. Savings Bonds when there are  
so many other good investments?

To help your country is one answer—and a good one.

But Bonds have other advantages that make them worth your consideration.

For instance, they offer you just about the easiest way to save money: either with the Payroll Savings Plan where you just ask your employer to put part of your wages aside toward a Bond or through regular purchase of Bonds at your bank.

Another unique advantage of U.S. Savings Bonds is the way they stick with you. You can get your money any time.

But if you're like most people, you'll hang on to your Savings Bonds for the big things you want in your future.

And, of course, Bonds are a safe investment—as long as there's a United States of America.

Which brings us back to your country again. Bonds help defend freedom at a time when the enemies of freedom are stronger than ever.

Buy Savings Bonds. The banks or savings institutions that sell them don't charge you a penny for the service

Keep freedom in your future with

## U.S. SAVINGS BONDS

The U.S. Government does not pay for this advertising. The Treasury Department thanks The Advertising Council and its publication for their full and able support.

# New $3\frac{3}{4}\%$ interest on U.S. Savings Bonds

*The Treasury explains why the new ones you buy and the ones you own now are better than ever*

**Q: How does the new  $3\frac{3}{4}\%$  interest rate benefit me?**

**A:** With Series E Bonds, the rate turns \$18.75 into \$25.00 fourteen months faster than the old rate. Your savings increase faster, because your Bonds mature in just 7 years, 9 months.

With Series H Bonds, the 10-year maturity period stays the same but more interest is paid you each six months. With both E and H Bonds the new rate works out to  $2\frac{1}{4}\%$  for the first year and a half; then a guaranteed  $4\%$  each year to maturity.

**Q: When did the new rate become effective?**

**A:** June 1, 1959.

**Q: Does the new rate change the Bonds I bought before June 1, 1959?**

**A:** All older E and H Bonds pay more now—an extra  $\frac{1}{2}\%$  from now on, when held to maturity. The increase takes effect in the first full interest period after June 1.

**Q: Will the Bonds I own automatically earn their new rate?**

**A:** Yes. You don't need to do a thing—just hold on to your Bonds.

**Q: When my E Bonds mature, will they keep on earning interest?**

**A:** Yes. An automatic 10-year extension privilege went into effect along with the new interest rate. This means your E Bonds will automatically keep earning interest after maturity.

**Q: With the new interest rate, should I cash in my old Bonds and buy new ones?**

**A:** No. The automatic  $\frac{1}{2}\%$  increase makes it unnecessary—and in almost every case it is to your advantage to retain your present Bonds.

**Q: How are series H Bonds different from series E Bonds?**

**A:** The chief difference is this: You buy H Bonds at full face value and the interest is paid by Treasury

check every six months for the life of the Bond. You buy E Bonds at 75% of face value and the interest accumulates to maturity. H Bonds provide income for living expenses, while E Bonds build a nest egg for the future. That's why many retired people hold H Bonds and families saving for, say, a child's education, buy E Bonds.

**Q: In what denominations can I buy series E and series H Bonds?**

**A:** E Bonds: \$25 (cost \$18.75), \$50 (cost \$37.50), \$100 (cost \$75.00), \$200 (cost \$150.00), \$500 (cost \$375.00), \$1,000 (cost \$750.00), \$10,000 (cost \$7,500.00).

H Bonds: \$500, \$1,000, \$5,000, and \$10,000. They are priced at face value.

**Q: How safe are U.S. Savings Bonds?**

**A:** Savings Bonds are an absolutely riskless way to save. The United States Government guarantees the cash value of your Bonds will not drop, that it can only grow.

**Q: What if my Bonds should be lost, stolen or destroyed?**

**A:** You can't lose. Every Bond purchased is recorded by the Treasury. If anything happens to your Bonds they are replaced—free.

**Q: Where can I buy Bonds?**

**A:** Buy E Bonds at any bank—it takes only a few minutes. Buy them automatically through the Payroll Savings Plan where you work. This Plan means you can have any amount you name automatically deducted every payday. The Bonds you buy by installments are delivered to you automatically, too. Your bank will take your order for H Bonds.

**Q: How do I help strengthen America's peace power when I buy U.S. Savings Bonds?**

**A:** Peace costs money—money for military strength and for science. And money saved by individuals helps keep our economy sound.

Rev. Lawrence Stewart, pastor of the Canal Point Baptist Church, read the vows as the couple stood before an altar centered with a three-tier candelabra holding two white cathedral candles on each tier. On either side of the altar was an eight candle candelabra flanked by baskets of white gladioli, mums, pompons and white snapdragons.

## Florida State Seal Use To Be Watched

Secretary of State Tom Adams has announced that tight controls have been clamped on the use of the Seal of the State of Florida.

Starting January 1, a new law went into effect which requires the Secretary of State to strictly limit use of the seal to official purposes by governmental agencies.

"This is a reform which has long been overdue," said Adams. "Lack of control in the past has led to indiscriminate and sometimes shoddy treatment of this emblem of our state. The result has been a debasement of the seal and what it stands for."

Under the new regulations, all persons desiring to use the seal must first make formal application. In their request they must cite the specific purpose for which they propose to use the seal and include a sample.

Eligible to use the seal under the new regulations are all public agencies in Florida, including municipalities and county government units and quasi-governmental bodies.

## Hall Of Fame Has Two Developers

JACKSONVILLE—Two of the state's pioneer developers and promoters have been named to the Florida Public Relations Association's Hall of Fame.

The organization's board of directors accepted the recommendations of its Hall of Fame Commission which named Henry Bradley Plant, who built a railroad to Tampa and Barron G. Collier, who developed what is now Collier County.

Plant has been dead 66 years and Collier died in 1939. They became the 14th and 15th members of the Hall of Fame, which is housed in the Florida State Chamber of Commerce building in Jacksonville.

Plant first came to Florida in 1852 and settled in Tampa the following year when he was placed in charge of an express company.

The pioneer transportation developer purchased the express business and between 1865 and 1879 acquired blocks of stock in railroads in Florida and Georgia. With associates he purchased the Atlantic & Gulf Railroad and organized the Savannah, Florida and Western Railroad. In 1883, Plant took control of the South Florida Railroad, completing a Tampa-Jacksonville line in 1884.

Collier, at the age of 26, had built a nationwide business in street car advertising. He came to Florida in 1911 and bought up land and timber companies until his holdings reached more than 900,000 acres in what was to become Collier County. Additional land purchased in Lee and Hendry counties pushed his holdings to more than one million acres.

In rapid time, Collier developed the Collier line, a fleet of ships, the Tamiami Trail Tours, and brought the Lee County Telephone Co. to the area. He later acquired four other telephone companies, putting them all under one service system. Survivors of the two men will be honored with ceremonies in Jacksonville during the 27th annual convention of the Florida Public Relations Association.

## How to speak out for freedom today

Free men have never gone in much for silence. Even before the first thirteen States became United States, men were speaking for freedom loud and clear.

Today Americans speak out for freedom many ways—in Congress, in local government, in neighborhood activities. Some speak out for freedom in other languages, in other lands. And millions of Americans speak out for freedom every time they buy U.S. Savings Bonds.

Every Savings Bond you buy is an investment in freedom. While you're saving money for your

own family's future, you're helping Uncle Sam tend to the business of keeping men free today.

Perhaps you don't speak out for freedom in the same tone of voice when you buy a Bond as Patrick Henry did in his famous speech. But you speak every bit as surely. And every bit as proudly.

Why not speak out for freedom now? Buy Bonds at the bank or on the Payroll Savings Plan where you work.

Keep freedom in your future with
